

Name _____ Date _____

Student Activity Sheet

PPE-2: Locating a Place

Introduction: How would you describe the location of a place on earth? There are several ways to do it. The diagram shows how.

- **Directions:** Write the name of the place in the top box. Then provide the rest of the information.

Name of Place _____

Hemispheres _____

Continent _____

Country _____

Bordering Features _____

Latitude and Longitude _____

Taking Another Step: In geography, there are two types of location. **Relative location** describes the location of a place in relation to other places. **Absolute location** describes the location of a place directly. On the back of this sheet, explain which of the items in the diagram refers to relative location and which refers to absolute location. Give reasons for your choices.
